Highlights

Aquatec - Wet or Dry shaving

The new Philips Norelco AT810 PowerTouch Cordless Razor lets you shave any way you want. An Aquatec seal gives you the option of either a comfortable dry shave or a refreshing wet shave with or without shaving cream or gel.

DualPrecision shaving heads

For precise results, the AT810 PowerTouch features a DualPrecision shaving system designed to effectively shave both longer hairs and short stubble.

Super Lift and Cut action

These low-friction heads are rounded to further protect your skin. To cut comfortably below skin level, the shaver comes with patented Super Lift & Cut dual-action blades that lift hairs.

Pop-up trimmer

An integrated pop-up trimmer helps complete your facial hair grooming routine. This trimmer is ideal for trimming and shaping sideburns, goatees, mustaches, and more.

Rechargeable cordless

With the AT810 PowerTouch, you'll enjoy the convenience of cordless operation at home or on the road. One hour of charging provides up to 17 days or 50 minutes of shaving time, and a 3-minute quick-charge option gives you enough power for a single shave.

Fully washable design

For convenient care and maintenance, the AT810 PowerTouch is fully washable. After use, simply hold the shaver under running water to clean. This shaver also comes with a cleaning brush for more thorough cleanup.

Replacement blades

To get the closest shave possible, replace the blades with HQ8 replacement heads every 12 months.
